## **Lieutenant Governor, Environment Department, Honor "Green" Businesses**

(Santa Fe, NM) —The New Mexico Environment Department (NMED) today honored New Mexico's most environmentally conscious businesses with its Green Zia award. Lieutenant Governor Diane Denish presented the awards, administered by NMED's Office of Pollution Prevention, to 15 New Mexico businesses at an awards ceremony at the Hilton of Santa Fe.

"As businesses improve environmentally they enjoy increased efficiency and waste minimization that improves productivity and profits," said NMED Secretary Ron Curry. "This is the big secret of pollution prevention that I have been working to get out, helping reduce waste is not only good for our state's environment, it is also good for business and the economy of New Mexico."

The following organizations were honored today for either committing to or actually going the extra mile to prevent pollution. In doing so, many of them have gone beyond regulatory requirements.
